HALLOR

INVESTOR
PRESENTATION

DISCLAIMER

Certain information set forth in this presentation contains “forward-looking information”, including “future-oriented financial information” and “financial outlook”, under applicable securities laws (collectively referred to herein as forward-looking statements). Except for statements of historical fact, the information contained herein constitutes forward-looking statements and includes, but is not limited to, the (i) projected financial performance of the Company; (ii) completion of, and the use of proceeds from, the sale of the shares being offered hereunder; (iii) the expected development of the Company’s business, projects, and joint ventures; (iv) execution of the Company’s vision and growth strategy, including with respect to future M&A activity and global growth; (v) sources and availability of third-party financing for the Company’s projects; (vi) completion of the Company’s projects that are currently underway, in development or otherwise under consideration; (vi) renewal of the Company’s current customer, supplier and other material agreements; and (vii) future liquidity, working capital, and capital requirements. Forward-looking statements are provided to allow potential investors the opportunity to understand management’s beliefs and opinions in respect of the future so that they may use such beliefs and opinions as one factor in evaluating an investment.

These statements are not guarantees of future performance and undue reliance should not be placed on them. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause actual performance and financial results in future periods to differ materially from any projections of future performance or result expressed or implied by such forward-looking statements. Although forward-looking statements contained in this presentation are based upon what management of the Company believes are reasonable assumptions, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The Company undertakes no obligation to update forward-looking statements if circumstances or management’s estimates or opinions should change except as required by applicable securities laws. The reader is cautioned not to place undue reliance on forward-looking statements.

HALLOR'S MISSION:

TO ACCELERATE THE
WORLD'S TRANSITION TO
SUSTAINABLE ENERGY BY
BUILDING ELECTRIC GROUND
SUPPORT EQUIPMENT (EGSE)
DESIGNED TO REPLACE SOME
OF THE PLANET'S BIGGEST
POLLUTERS—
WHILE PRIORITIZING SAFETY,
OPERATIONAL EFFICIENCY,
AND
LOWERING OPEX.

TOTAL ADDRESSABLE MARKET

INCLUDES: BAGGAGE TRACTORS, PUSHBACKS, BELT LOADERS, AND WATER/LAVATORY CARTS

\$13.3B USD

ESTIMATED GLOBAL GSE MARKET BY 2031

1,000,000+

EXISTING BAGGAGE TRACTORS GLOBALLY

\$404M USD

CURRENT ESTIMATED
NORTH AMERICAN MARKET (30%)

6.03%

ESTIMATED CAGR FROM 2023 TO 2031

THE MAJORITY OF THE 1,000,000+
BAGGAGE TRACTORS ACROSS THE GLOBE
ARE COMBUSTION-DRIVEN, CAUSING
HIGH CARBON EMISSIONS.

BY 2030,
THE AIRPORT GROUND
SUPPORT EQUIPMENT
(GSE) MARKET IS
SET TO DOUBLE.

CURRENT PROVIDERS

AIRLINES CURRENTLY CONTRACT THEIR GROUND HANDLING FROM COMPANIES THAT MAINLY USE COMBUSTION-DRIVEN GROUND SUPPORT EQUIPMENT (GSE)

CURRENT TRACTOR SOLUTIONS ARE UNRELIABLE, DANGEROUS, DATED, AND FOSSIL-FUEL DEPENDENT

USER SAFETY IS RELIANT ON ADMINISTRATIVE AND PPE CONTROLS THAT DRIVE HIGHER INSURANCE PREMIUMS AND LOWER STAFF RETENTION

OPERATING COSTS OF A GAS OR DIESEL CAN BE UPWARDS OF \$30K/YEAR, WITH COSTS CONTINUING TO RISE

PARTS ARE HARD TO OBTAIN AND UNITS ARE EXPENSIVE TO REPAIR ONCE OUT OF COMMISSION

SOLUTION: THE ELECTRIC GREEN OX

WHY HALLOR ELECTRIC TRACTORS

THE SAFEST AND THE ONLY MODULAR TRACTOR SYSTEM AVAILABLE IN THE WORLD

1

REDUCE COSTS & MAINTENANCE

- Up to 80% reduced OpEx
- Virtually no maintenance
- Zero fuel cost
- No proprietary charging plugs required
- Readily-available consumable parts

2

HIGHEST SAFETY & INCREASED STAFF RETENTION

- Lowest centre of gravity and harder to flip than a military Humvee
- Anti-fatigue design
- High visibility of staff compliance to safety

3

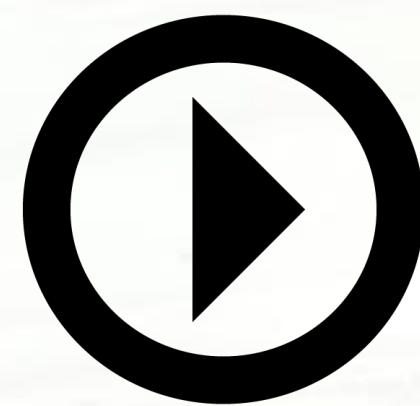

HIGH PERFORMANCE & MOBILITY

- Easy to operate: superior traction & ride experience
- Modular system for increased fleet utility
- Integrated data monitoring and telematics
- Full Charge = 2 work shifts

4

CONTRIBUTE TO SUSTAINABILITY EFFORTS

- Purpose-built with focus on sustainability
- Reliable, affordable, and 98% recyclable Acid Flood batteries with Lithium option
- Sales eligible for government Energy Rebate programs

COMPELLING INVESTMENT CASE

OPPORTUNITY

THE GREEN OX HAS BEEN PURPOSE-BUILT TO CAPTURE THE LARGEST SEGMENT IN GSE, ACCOUNTING FOR AN ESTIMATED \$37B+ GLOBAL MARKET THAT CONTINUES TO EXPERIENCE RAPID GROWTH.

BEST IN CLASS. ECONOMICAL. SAFE. COMFORTABLE. SUSTAINABLE. DATA-DRIVEN ENHANCED PERFORMANCE.

GO-TO-MARKET

UTILIZING 35+ YEARS OF SALES INDUSTRY EXPERIENCE AND DATA-DRIVEN DIGITAL SCALE-UP LEAD-GEN, EQUATING TO IMMEDIATE ORDERS OF 1,700+ TRACTOR UNITS FOR FLEET TRANSITION TO ZERO-EMISSION.
MAJOR AIRLINES AND GSE CONTRACTORS ENGAGED.

SCALABILITY

LOW-CAPEX MANUFACTURING ONGOING FOR THE GREEN OX AND ADDITIONAL R&D HALLOR PRODUCTS THAT SUPPORTS REVENUE AND MARGIN GROWTH. THIS WOULD INCLUDE CONVERTING EXISTING COMBUSTION UNITS TO ELECTRIC TO UPGRADE EXISTING FLEETS.

EXPANSION

DEMAND-LED BY THE GSE AVIATION INDUSTRY FOR COMMITMENTS TO CLEAN, GREEN PRODUCTS.

LEADERSHIP

MISSION-LED LEADERSHIP TEAM WITH DEEP EXPERTISE IN MANUFACTURING, PRODUCTION, MAINTENANCE, AND BUSINESS STRATEGY, WHILE PRIORITIZING ENVIRONMENTALLY SUSTAINABLE AND ELECTRICAL ADVANCEMENTS.

COMPETITIVE LANDSCAPE

CURRENT PLAYERS

VS. BEST IN CLASS

HIGH OPERATING EXPENSES (\$30K+/YEAR)

VS. 80% LESS ANNUAL OPERATING EXPENSES

PREDOMINANTLY GAS AND DIESEL

VS. ZERO EMISSIONS USING CLEAN ENERGY

ADMINISTRATIVE SAFETY CONTROLS TO MEET LEGISLATED REQUIREMENTS

VS. ENGINEERED SAFETY CONTROLS TO EXCEED LEGISLATED REQUIREMENTS

CLUNKY OUTDATED DESIGN & UTILIZES OLD TECH

VS. DESIGNED FOR COMFORT & ANTI-FATIGUE

PREDOMINANTLY NON-MODULAR DESIGN & HIGHER INVENTORY REQUIREMENTS

VS. MODULAR CHASSIS DESIGN FOR FULL FLEET COMMONALITY

TARIFF IMPACTED PRODUCTION & IMPORT

VS. CANADIAN PRODUCTION WITH CONNECTIONS FOR U.S. EXPANSION

COMPETING WITH EACH OTHER FOR SAME SUPPLY CHAIN VENDORS

VS. ROBUST SUPPLY CHAIN ACCESS AND RELATIONSHIPS

HIGH CENTER OF GRAVITY & EASY TO TIP

VS. LOWEST CENTER OF GRAVITY & HARDER TO TIP THAN A MILITARY HUMVEE

INEFFICIENT OR NON-FUNCTIONAL IN EXTREME TEMPERATURES

VS. ALL-WEATHER TESTING FROM +50°C TO -47°C (122°F TO -52°F)

REAR-WHEEL DRIVE ONLY

VS. FRONT-WHEEL DRIVE FOR UNMATCHED CONTROL

Potential Purchase Order Breakdown

1.KF Aerospace

Currently in discussion: 2 x Electric Belt Loader
Value: \$338,000

Potential future orders: 15+ units with Canada-wide deployment
Potential future order value: \$1.6M+

2.SA GAT

Currently in discussion: 2 x Electric Belt Loader
Value: \$338,000

Potential future orders: 190+ units with Canada-wide deployment
Potential future order value: \$20M+

3.Calm Air

Requires available inventory.
Potential future orders: 20+ units with Canada-wide deployment
Potential future order value: \$2M+

4.Summit Air

Requires available inventory.
Potential future orders: 7+ units with Canada-wide deployment
Potential future order value: \$710,000+

5.Alpine Helicopters

Requires available inventory.
Potential future orders: 1+ units with West Kelowna deployment
Potential future order value: \$250,000+

Full interest list of current orders in discussion

- Conservatively, \$25M potential order book (210+ units; average \$100k/unit) with known current clients.
- This is focused on the small local aviation GSE market.
- Overall combined target sales of \$119M (1,630+ units) over 3 years.
- Based on continuous inventory availability.
- Excludes potential ports, terminals, mining, and agriculture industries.
- Excludes additional revenue streams via conversion kits and telematics.

“THE GREEN OX HAS BEEN PERFORMING ADMIRABLY, NO WORRY ABOUT STARTING ISSUES IN COLD WEATHER AND WE CAN USE IT INSIDE OUR FACILITY AS IT IS ZERO EMISSION. THE ABILITY TO USE IT OVER VARIED TERRAIN AND IN INCLEMENT WEATHER IS ONE OF ITS GREATEST ATTRIBUTES.”

— DIRK VAN ULDEN,
ALPINE HELICOPTERS

APPROVED AND SUPPORTED BY GOVERNMENT FUNDING

UP TO 80% REIMBURSEMENT INCENTIVE FOR POTENTIAL HALLOR CUSTOMERS

Innovate BC's Integrated Marketplace Initiative (IMI) Program provides incentives for companies operating out of 3 major testbeds in BC, Canada.

Being BC-based, Hallor qualifies as an Innovative Solutions Provider under this program and can offer our customers steep discounts to purchase and trial our line of products, leading to additional major purchase orders.

innovate BC

MITSUBISHI HC CANADA OFFICIAL LEASING PARTNER

LEASING ADVANTAGES

Leasing allows new electric additions to customer GSE fleets without needing to shoulder the cost of paying everything up front.

- Keeps monthly cashflow predictable with consistent low payments
- All-electric capabilities at a comparable cost to gas/diesel units
- Buy new + electric and saves on OpEx
- Competitive rates

“HAVING WORKED AROUND ‘DIRTY’ HEAVY
INDUSTRIAL PRODUCTS FOR DECADES AND
BEING TIRED OF SUB-PAR QUALITY AND
RIDICULOUS WAIT TIMES,
IT WAS TIME TO BUILD BETTER.”

– KEITH HALSTON & JAMES TAYLOR, FOUNDERS

QUALITY. LONGEVITY. WORKMANSHIP. ENVIRONMENTAL RESPONSIBILITY.

LEADERSHIP

DEAN KNEIDER CEO & BOARD MEMBER

“MY GOAL IS TO MAKE THIS WORLD A BETTER PLACE WITH THE RIGHT PRODUCTS AT THE RIGHT TIME. IF IT WAS EASY, EVERYONE WOULD DO IT.”

Dean is a 30+ year business veteran operating and growing private and public ventures in the consumer services, development, manufacturing and operational roles.

Having worked for Coca-Cola, Labatt Breweries, Intrawest, and Foster Grant and Global Coffee, Dean has built, led, and achieved strategic growth plans with international reach.

Recently, Dean has passionately started and run the Vancouver-based EV Conversion Company RiiseEV for Classic cars, Buses and Commercial Utility Vehicles - all with gradually increasing deliverables on sustainability and green initiatives, supporting a circular economy.

implementation for achieving company growth. An avid Car enthusiast with a passion for

LEADERSHIP

KEITH HALSTON
TECHNICAL DIRECTOR
& CO-FOUNDER

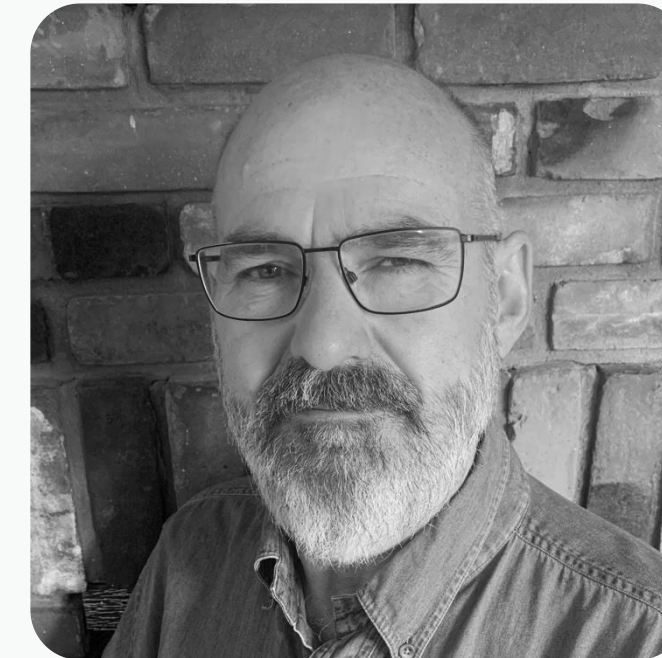

“MAKING THINGS BETTER HAS ALWAYS BEEN AN INHERENT ABILITY OF MINE.”

Over the course of 35+ years as a Millwright/Steel Fabricator, Keith found his inherent ability to not only solve problems but improve the overall machine. While working in the forestry, mining and transportation industries he worked on all aspects of mills and equipment.

Later in his career, Keith became a Ground Support Equipment (GSE) Maintenance Manager for an international airport. His exposure to the airport environment allowed Keith an in-depth look at the critical needs that were lacking—inefficient and expensive gas and diesel equipment that had not seen improvements for decades.

Traditional GSE were designed in a way that got the job done but at the expense of high maintenance, high emissions, and above all, operator safety.

Keith's innovations led to his enthusiastic dedication to designing and building industry-

JAMES TAYLOR
TECHNICAL DIRECTOR
& CO-FOUNDER

“WE WERE FINALLY ABLE TO BUILD SOMETHING THAT SOLVES A LOT OF QUESTIONS I HAD AS TO WHY PEOPLE ENGINEER PRODUCTS THE WAY THEY DO.”

James has 40+ years of extensive experience as a heavy-duty mechanic and welder, having rebuilt entire machines including power train components, right down to the brakes. He has applied his knowledge for the last 25 years as self-proprietor, working in the interior of BC, Canada.

His insatiable interest in learning how things worked and solving problems led him to cross paths with Keith Halston. Always working on someone else’s project, it was time to create and build something of his own. Together, they developed an electric tractor for the airport industry long before “go green” became common vernacular.

As co-founder of Hallor, James has been a fundamental supporter of the Green Ox R&D process as well as the development of other electric ground support equipment (GSE) that will set a new standard in the airport industry.

LEADERSHIP

TERENCE LEE
CFO & BOARD OFFICER

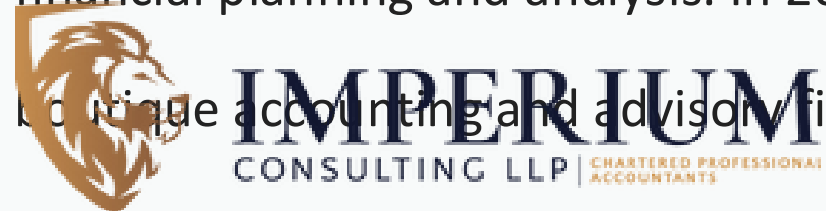

SIGNIFICANT EXPERIENCE WITH CANADIAN PUBLIC COMPANIES FOR FINANCIAL PLANNING AND AUDITS

Terence is a Chartered Professional Accountant (“CPA”) with ten years of progressive finance experience working and servicing companies across various industries including EV, Mining, Technology, and Cannabis.

He obtained his CPA designation while articling with BDO Canada LLP. During his tenure at BDO, Terence was focused primarily on providing audit and assurance services to Canadian public companies.

Terence has significant experience in financial reporting, technical accounting (IFRS), and

financial planning and analysis. In 2019, he co-founded Imperium Consulting LLP, a

unique accounting and advisory firm based in downtown Vancouver, BC.

Terence con-currently serves as CFO to a publicly listed cannabis management company and to a BC based private junior resource company.

CHRISTINA VAN
OPERATIONS & COMMUNICATION

PROCESS AND EXECUTION SPECIALIST FOR GROWING AND ESTABLISHED COMPANIES

Christina has 16+ years in design, marketing, and communications, working in-depth with industries including EV and Charging Infrastructure, Sustainable Tech, Hospitality, and CPG.

Her decade-plus tenure as a marketing agency Partner and Director of Digital Communications has honed Christina’s tools for creating effective processes, data analytics, and results-driven metrics used to evaluate opportunities, both in-bound and out-bound, as well as go-to-market strategies.

Her experienced resilience in facing the challenges of both startups and established businesses during market fluctuation has been crucial in helping other high-potential entrepreneurs find and achieve their paths to success.

Christina works closely with leadership to join key contacts with potential strategic

GARY OGDEN
SALES

SOLD TO DATE HUNDREDS OF GROUND SUPPORT EQUIPMENT, INCLUDING TRACTORS AND CARTS, EQUATING

Gary is an accomplished senior executive with 35+ years of success across the aviation, transportation, construction, and consulting industries.

Throughout his executive career, Gary has held leadership positions with organizations including GTA dnata, Servisair, Lockheed Air Terminal and Sunwing Airlines Inc. and is also the Chief Executive Officer of GO Green Aviation. Gary’s experience include leading start-ups and business development efforts, managing infrastructure/project initiations, and navigating global aviation markets.

Leveraging his extensive experience and network in what Gary calls “one of the most exciting industries on the planet”, Gary is passionate and well-poised to establish Hallor

as the GSE industry leader to further environmental awareness and the ‘cleaning and

greening’ of the Aviation Industry.

MARK ORSMOND
INDUSTRY SPECIALIST

FORMER CFO OF TAIGA MOTORS TO HELP SECURE \$200M FINANCING FOR GO-PUBLIC

Mark is an experienced business leader with a proven track record of managing and growing businesses to become global enterprises. For ~3 years, Mark was CFO of the Corix Group of Companies managing a team of over 45 accounting and finance professionals, and overseeing an annual budget of \$2.4B+ and \$1.6B+ debt portfolio. Prior to Corix, Mark was a principal of the All-Sea Group of companies fostering its development into one of the world’s leading underwater high-capacity service companies.

In 2020–2022 Mark was the CFO of Taiga Motors, where he assisted the Company in

securing a major \$200M financing for a Canadian SPAC that included Federal and Provincial grants and loans for over \$50M. He joined HiiscEV in 2021 to help launch the

company and has most recently been appointed as the CFO of Electra Meccanica, listed on Nasdaq. Mark's insights and passion for the EV industry makes him a valuable
